React.js | Node.js | MongoDB

SUMMARY

1. Graduate passionate about **software programming** and skilled at **web development.**
2. Won the **Hacktoberfest 2k22** and also contributed to **4 Open Source Development Projects** through **Github.**

EDUCATION

Bachelor of Engineering: Electrical and Electronics Engineering   May 2020 - Present
Sri Venkateshwara University college of Engineering

INTERNSHIP

Front End Developer   Dec 2022 - Jan 2023
Oasis Infobyte, online

- Developed three dynamic and fully-functional web applications in record time of **1 month** using **React.js**, showcasing my mastery of the framework and ability to deliver complex projects quickly and efficiently.
- Developed a modern, responsive application that demonstrate the expertise in the latest **web development technologies** and capacity to design and develop high-quality software solutions under tight deadlines.

MERN Stack Developer   May 2022 - Aug 2022
Klazigo, Tirupati

- Led a talented cross-functional team to design and build a scalable, robust and efficient **MERN Stack** web application at **Klazigo** within a **3-month** timeframe.
- Demonstrated strong project management skills, technical expertise, and ability to collaborate effectively with others to deliver high quality results and exceptional user experiences.

PROJECTS

WaChat   Feb 2023 - Present

- Designed, developed, and launched an **Open-Source Project** that enables seamless communication on WhatsApp without the need to save contact numbers.
- Contributed to the **Open-Source Community** through **Github** by delivering innovative solutions that **improved user experience** by **2%**.
- Demonstrated technical proficiency, creativity, and a commitment to delivering quality results through the development of the **open-source WhatsApp project**.

TedX Event application   Oct 2022 - Nov 2022

- Collaborated with a team to develop and launch a **TedX web application** using **React.js** that streamlined event registration of **1000 members** and improved attendee experience.
- Successfully hosted a TedX event using the web application, demonstrating the ability to deliver results that met stakeholders' needs.
- Contributed to a collaborative project that showcased the ability to work well in a team and deliver **high-quality results** that positively impacted the college community.

⚜ OTHER ACCOMPLISHMENTS

- Played a **key technical role** in planning and conducting a successful **TedX event**, ensuring seamless implementation and operation of all technical aspects.
- Recognized for outstanding proficiency in **Frontend coding** by winning a competitive coding contest conducted by the college. Demonstrated mastery of **programming skills** and ability to deliver high-quality code under time pressure.
